

About The A2D Project

Anointed to Dance (A2D) has existed for 14 years, providing professional dance instruction locally and nationally through workshops, classes and conferences. Anointed to Dance Inc. is now a 501c3 nonprofit organization making an even greater impact by providing quality ballet, modern, jazz, contemporary and liturgical dance to women and girls, who desire professional dance instruction, are financially disadvantaged, and have special needs. Our overall mission is to develop, motivate, uplift, and mentor those who desire to dance, through community outreach, resources and workshops to strengthen the body, mind and spirit.

We desire to serve students who are genuinely interested in the arts and whose income, families, churches and schools cannot provide such opportunities. We also serve dance instructors, choreographers, and dance leaders by offering support through health and wellness initiatives, new ideas of dance education and great mission opportunities. By making the arts accessible, we strive to serve our community, and under-served youth, promote their physical health and motivate them to believe they can accomplish whatever they desire to become. We strive to create positive experiences with high impact.
